DIAMOND CERTIFICATE

BAIRD-NORTH CO.

219D.

A hand carved platinum setting designed to emphasize the beauty of a diamond. It will be furnished with any stone shown on pages 2 or 3 at \$30.00 additional.

There is probably no class of goods in which there is a greater opportunity for deception than diamonds owing principally to the fact that few people are thoroughly acquainted with these precious gems. Not one person in ten has the slightest idea of the size or quality to expect for his money. For this reason great care in the selection of a reputable house is as necessary as the selection of the stone itself. You must select a house upon whose advice you can rely absolutely.

No house carries a larger or better stock than we do, and the Baird-North reputation for reliability is unquestioned, as any banker, postmaster or express agent will tell you. As you know, buying diamonds in large quantities enables us to give you better values because we can get better prices ourselves and our stock is such that at all times we can furnish you exactly the stone you order.

When you select a diamond ring, the stone is examined carefully and nothing with the slightest objectionable feature is sent to a customer; in fact, in all our relations we consider that we are acting as for a personal friend. This fact, coupled with our extensive experience, renders a service to you which cannot be duplicated.

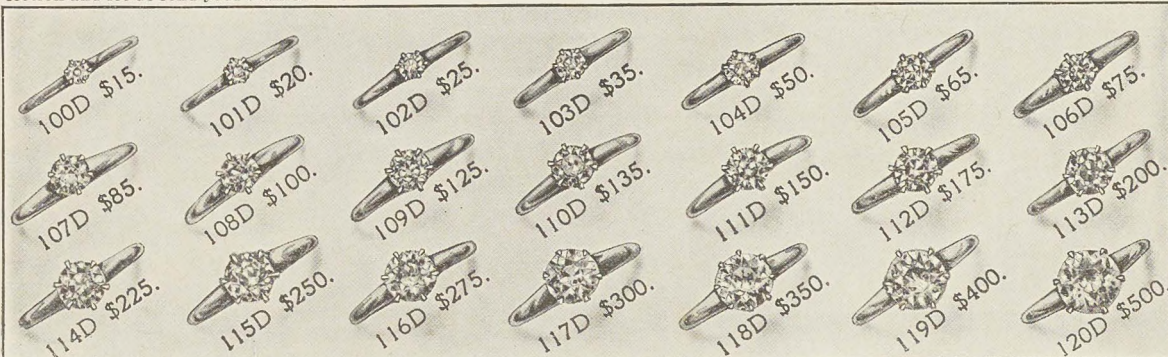

At the top of the page you will see our diamond certificate showing our guarantee in full. Read it carefully. Note our proposition — "WE GUARANTEE TO REFUND THE FULL PURCHASE PRICE OF THIS RING IN CASH IF IT IS RETURNED TO US WITHIN ONE YEAR FROM THE DATE OF THIS CERTIFICATE."

This one year guarantee is the most liberal that has ever been made by any diamond house, for we consider that you are entitled to the privilege of returning your diamond if you find that you can purchase elsewhere to better advantage.

By reason of this guarantee you are given the opportunity to get the best value for your money and to prove that our statements are absolutely true. We haven't space here to give all the information that one should have before making a purchase, therefore we have written a sixteen-page booklet for you, describing the diamond and giving you some good advice. Drop us a postal now — it is free.

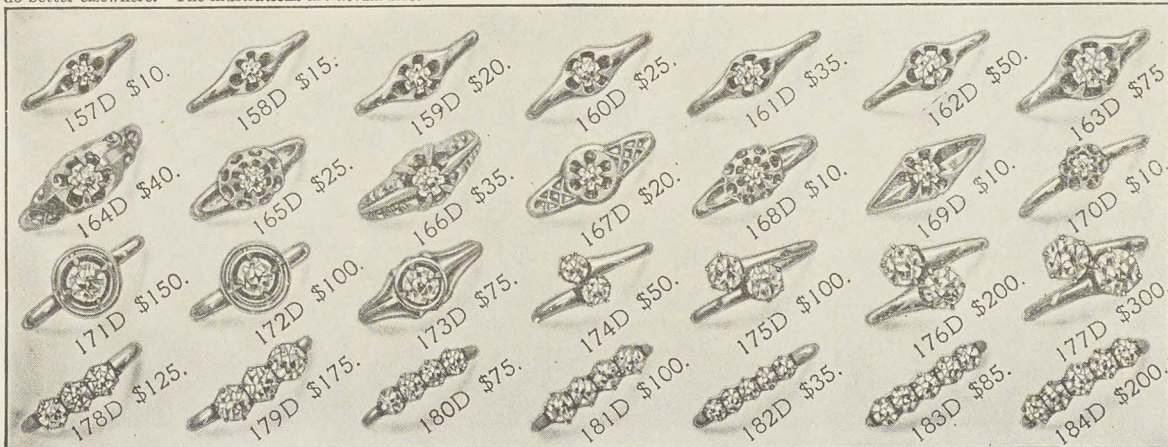

To you who are thinking of buying a diamond as an investment we urge an immediate purchase, for you will never get another opportunity to buy diamonds at the prices quoted in this book. By purchasing from the Baird-North Co. you have the advantage of making your selection from a large stock bought before stones had reached their present high prices, as we buy far in advance of our immediate needs.

Every diamond we buy from now on will be at a great advance over what we have paid previously — hence your investment will be all the better if you buy at once. You cannot afford to delay, and, with such a liberal guarantee behind the sale, you cannot afford to buy elsewhere. Make your selection and let us send your diamond now.

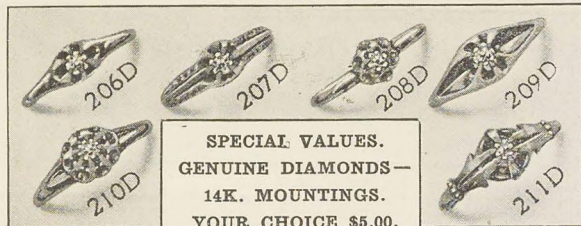

**A1 DIAMONDS IN 14K. GOLD BAIRD-NORTH MOUNTINGS.**

These diamonds are carefully selected first quality stones. They are mounted in a manner wholly in keeping with their quality, those stones having a value of \$85.00 or over, being mounted in rings with 14K. shanks and platinum setting — those having a value of less than \$85.00 are mounted in rings having a 14K. shank and platinum lined setting. We send each ring in a suitable case, and give you a French Ivory case with every ring costing \$75.00 or more.

We also engrave a short inscription on the inside of our diamond rings without extra charge, which adds to their value as engagement gifts. We guarantee every stone shown here to be of superior quality. We guarantee them to be of better value than you can secure elsewhere for the money, and we will give you one year to prove to your entire satisfaction the value of the diamond we send. This guarantee gives you a chance to make comparisons with the stones of other dealers, and remember that your money is ready to be returned to you at any time that you decide that you can do better elsewhere. The illustrations are actual size.

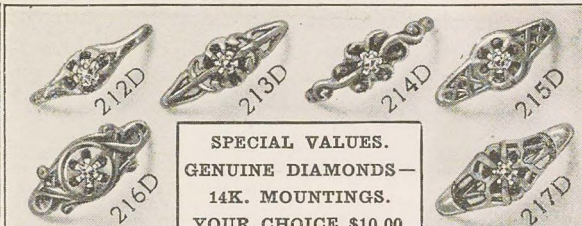

**A1 DIAMONDS IN FANCY MOUNTINGS.**

The illustrations are actual size. These diamonds are the same quality as those shown in the first plate on this page. The mountings are of 14K gold, the settings of the circlet and twin rings being lined with platinum. These rings should appeal strongly to those who like to have their diamond set off by an elaborate and attractive mounting. We call your special attention to the new engagement rings 171D, 172D and 173D. They incorporate the friendship circle in the setting, making them especially appropriate. The circles are of solid platinum, making rings of great beauty.

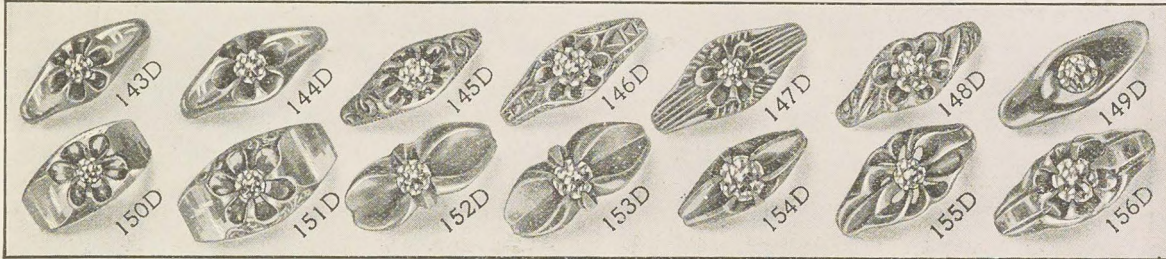

These are fine brilliant diamonds of our B grade. They are particularly showy stones which we have selected especially for this assortment. The rings shown are unusual values—values such as one secures only from the Baird-North Co. It is useless to buy inferior stones when you can get beautiful diamonds at such low prices. Remember every diamond ring shown on pages 2 and 3 is sold under our guarantee, which we alone make—that your money will be refunded at any time within one year if you want it.

Special Offer. Every customer who selects as their engagement ring a \$50.00 diamond solitaire from pages 2 or 3, and who also buys a Baird-North wedding ring from page 4, will receive upon sending us an announcement of their marriage a wedding gift not less than \$3.00 in value. The purchases must be made between May 1 and November 1, 1913.

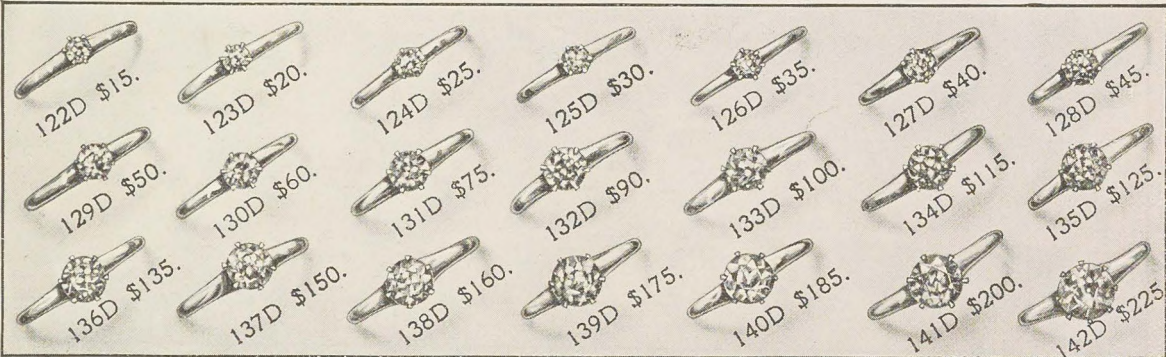

No birthday or graduation gift can compare with a diamond. The only objection to a diamond is that it is expensive. We show here however some particularly fine bargains in our B grade which are within the reach of every purse. Every sweet girl graduate should this year receive a diamond among her other gifts, nothing will please her more. The illustrations are actual size, and the mountings are 14K gold.

BEAUTIFUL DIAMONDS SET IN GENTLEMEN'S 14K. RINGS.

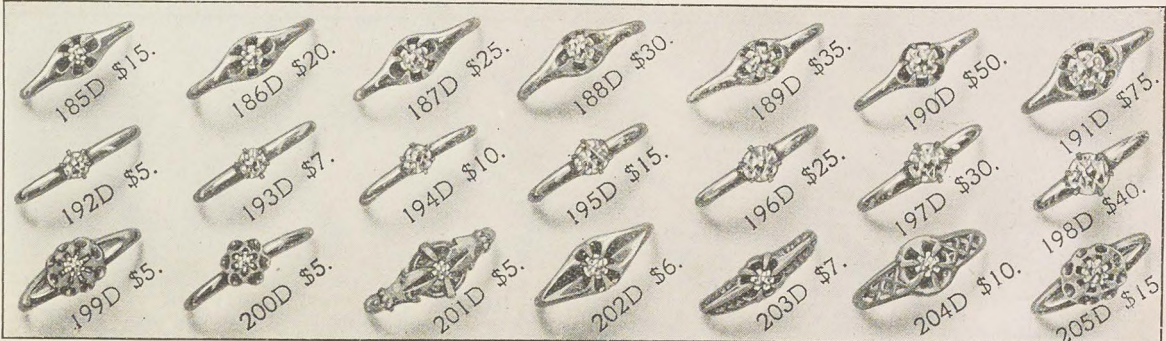

We show here some of the latest productions of our factory in gentlemen's rings. The mountings are heavy, hand-made rings of massive appearance. The stones we show here are three grades—A1, A and B. Our A grade is slightly inferior to our A1 quality. They are white stones, very brilliant, and while they are not absolutely perfect the imperfections are so slight as to be practically unnoticed by the naked eye. The B grade are some of the less desirable of our A grade, but are stones of great beauty and brilliancy, and give a stone of exceptional size at a small price. Pictures are actual size.

"A" GRADE DIAMONDS IN SOLID 14K. BAIRD-NORTH MOUNTINGS.

The illustrations are actual size. This quality is slightly inferior to our A1 quality. After selecting the very best of our diamonds for our A1 grade we sort the remainder carefully, picking out those that are very slightly imperfect for our A grade. We are very particular in this second sorting not to pass by any imperfection which would be prominent or objectionable. In fact so far as nine out of ten people can judge, the diamonds appear to have no defects whatever. If you want a fine brilliant diamond that will make a particularly good showing we recommend this quality. The difference in size will more than offset the disadvantage of an imperfection that no one needs to know about, except yourself. The rings are sold under the same guarantee and are mounted in the same manner as the A1 grade. All stones having a value of less than \$85.00 are mounted in 14K. rings with platinum lined settings—those having a value of \$85.00 or over being in rings with settings made entirely of platinum.

"B" GRADE IN 14K. SOLID GOLD MOUNTINGS.

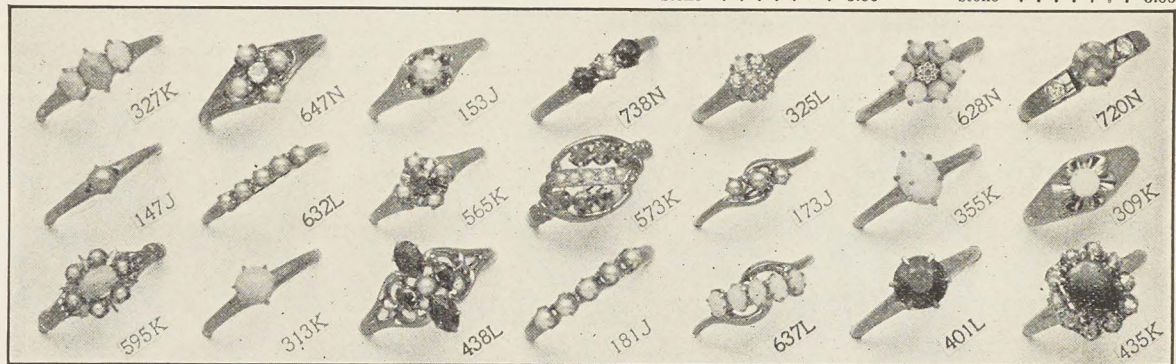

There are few people who haven't the desire to own a diamond ring. Many have never purchased because they could n't afford to get a diamond of the size they desire. It has probably never occurred to these good people that it is possible to get a diamond of a slightly inferior grade at a much lower price. We show here some rings of exceptional value—diamonds of great brilliancy which, though slightly imperfect, are equal to 60% of the diamonds now being worn in this country and which their owners look upon as superior stones because they paid fancy prices for them. The mountings are of solid 14K. gold, strongly made and fully guaranteed. We sell these diamonds under the same liberal guarantee which governs the sale of our A1 and A grades—that your money will be immediately refunded if for any reason you should consider the ring insufficient value for your money. These rings make especially fine graduation and birthday gifts, and they are good rings for those who now possess a diamond of good quality,

LADIES' LITTLE FINGER RINGS—10K GOLD.

The illustrations are actual size. Little finger rings are no longer a fad — in fact they are by far the most popular ring for ladies' wear. They combine both strength and beauty, and there is something irresistibly attractive about them. All stones are genuine and of fine quality, and the mountings are heavy and of 10K gold. It is readily seen then that these rings are built for durability as well as beauty. Don't forget the finger size when you order.

The stones are carefully selected with an eye to harmony in color and quality. The rings are all hand made mountings of excellent weight. These rings are exceptionally fine value and are attractive rings suitable for any purpose.

SOLID GOLD SEAMLESS WEDDING RINGS, 14K., 18K., AND 22K.

The illustrations show the actual size. These rings are one-piece rings, turned from a solid piece of gold with no solder or joint. We illustrate the "narrow" and the "medium" styles, these being the most popular rings at the present time. The "narrow" shown in the upper row is thick and narrow; the "medium" shown in the second row is somewhat broader and a little thinner. We engrave initials and date on the inside of our wedding rings without charge. Rings 855 and 856 are oval band rings. We carry 14k and 18k wedding rings in stock and can fill orders very promptly. It takes about three days to fill orders for 22k rings.

14K RINGS SET WITH RECONSTRUCTED STONES.

A reconstructed stone is a gem that is made from small particles of genuine stone and fused together by intense electrical heat. In material they are the same as the genuine mined stones, but as they are composed of what might otherwise be wasted they are much less expensive. The white sapphire resembles the diamond very closely — it is pure white in color and very brilliant. Being next to a diamond in hardness they are absolutely imperishable, and if kept clean they will always retain their brilliancy. The pearls are genuine.

10K GOLD PENDANTS AND LA VALLIERES.

When one selects a pendant, the first requisite is harmony. There must be harmony in the stone combinations, and the metal work must harmonize with the stones both in arrangement and finish. Harmony is not the only requisite, however. A pendant must be strongly made. In these pendants we have harmony without the sacrifice of strength; we have made them strong without sacrificing delicacy. We have produced pendants at low prices that for elegance and grace approach designs which are far more costly. You who are looking for graduation gifts, or who wish to remember your bridesmaids, can select nothing that will be more appreciated or that will be a more pleasant reminder of the giver. All the cameos, baroque pearls, diamonds, and half pearls are genuine; all other stones are fine imitations, unless otherwise specified. The cameos have white heads with pink background.

NEW GERMAN-SILVER MESH BAGS.

- With the exception of Nos. 21485, 21520 and 21486 the bags are made in the new lock mesh, which is absolutely unbreakable. No. 21520 is one of the new bead bags, which are so popular at the present time. Bead bags are especially good for summer use, because the beads will not soil a light skirt as will the metal rings. The bags shown in the lock mesh are not lined, all others are lined in kid except No. 21520, which is lined with silk.

35914 price \$1.00. A fine two-piece bird or steak carving set nicely boxed. To those seeking a high grade carving set at a very low cost we recommend this beautiful and desirable set. We sell hundreds of these sets and they always more than meet the highest expectation of the purchaser. The knife blade is 5½ inches long and is made of the finest German steel. The full length of the knife is 9¾ inches.

Every housewife will want this simple and ornamental device, and we cannot think of a more acceptable wedding gift than this "Never-Drip Strainer" made in sterling silver. This strainer cannot get out of order, and it wholly prevents the possibility of soiling the cloth.

It's a Strainer and a Drip-Cup Combined.

Just a little twist of the wrist, and the cup at the base is turned up at the side so that the strainer can be used. It is then allowed to swing back to its proper position below the strainer. The cup catches the drip from the strainer when not in use. The lip around the edge of the drip-pan prevents the drippings from running out when the pan is turned on edge while pouring. The handles on all are of wood with the dead ebonized finish. We carry this strainer in three qualities:

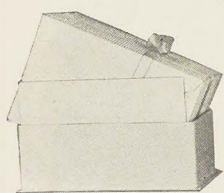

30387 Silver plate, satin finish, the inside of the strainer polished bright: 50c.

30388 Quadruple plate, polished bright, inside of drip-cup gold-lined and gold plated strainer, \$1.00.

30389 Solid sterling silver, polished bright, drip-cup gold lined and strainer gold plated, \$2.50.

Have you ever noticed that the people you like to have write to you are the ones whose letters have the best appearance? These people owe considerable of their success as correspondents to their stationery. Good stationery shows up writing clearly and distinctly because it has a good, firm surface, and the ink cannot soak in and spread among the fibres. We have selected for our stock, two of the best papers on the market. The first is made especially for us by one of the foremost paper mills in the country. We have named it Baird-North Purity Linen. It is of the finest quality; firm texture, beautiful finish, and will give your correspondence an added richness. Our other stationery is the celebrated Eaton, Crane & Pike's brand, which is known the world over for its superior quality and finish. The people whose letters have an individuality to them are those that have adopted some particular brand of paper in all their correspondence. The use of Baird-North Purity Linen or Eaton, Crane & Pike's stationery will give your letter a tasteful individuality.

VICTORIA.

DAISY.

The Victoria is a very beautiful scroll and floral combination. It is something entirely new, even the shape being in accordance with the more recent styles. It is finished in the French gray, which sets off the design to the very best advantage. The effect of this pattern may be made even richer by the engraving of a monogram on the larger pieces, which we will do for 50c.; Old English letter will be engraved for 25c. each. On the hat brush and salve jar we engrave monogram for 25c.; Old English letter, 25c. The smaller pieces are suitable for one letter only, which we engrave free. The illustrations are one-half scale.

The Daisy is probably the most popular pattern in sterling silver toilet ware now on the market. Its popularity is not undeserved, for no one who loves the wild daisy can fail to admire this pattern. Every detail of the flower is carefully worked out and the petals stand up so prominently that it almost seems as though you could pluck them one by one as you used to pluck the petals of the daisy to determine your destiny. We engrave 3 script initials on the larger pieces free of charge; the smaller pieces are not suitable for engraving. A monogram will be engraved on the large pieces for 50c.; Old English letter, 25c. All this pattern is finished in the gray silver. The illustrations are one-half scale.

FRENCH IVORY TOILET WARE.

There is no line of toilet ware so universally admired as French Ivory. It is equal in appearance to real ivory, and it surpasses it in durability. It is easily kept clean, and being pure white adds a tone of cleanliness to the dressing table. The material used throughout is of the very highest grade, and there is not a similar line on the market that is superior to our French Ivory. We engrave these goods filling the engraving with colored enamel. You may have your choice of the following colors: Dark blue, green, gold, silver and yellow. Unless otherwise specified, we will fill engraving with turquoise blue enamel. Our prices for engraving on the large pieces are—Monograms, \$1.00; large script letter, 25c.; Old English letter, 50c.; three letters not in monogram, 50c. On small pieces we engrave one script letter for 15c.; Old English letter, 25c.; three script letters, 25c. There is not sufficient space to engrave a monogram on the comb or manicuring pieces. THE DIANA.

The statement that a pattern is Rogers Plate is usually sufficient to give it instant popularity, for there is no line that is more favorably known. We believe that the Diana would be popular, though, even if the brand were not so famous, for there is no floral pattern that combines so much beauty and elegance. The tea spoon shown is full size. All other pieces one-half scale. We engrave one script letter free; Old English letter, 5 cents.
